

Features

The 'split personality' 50:50 range comprises of a side chair and high stool available in two contrasting materials, anodised aluminium or oak veneer. Versatile and functional, the design is suitable for a wide range of environments including contemporary bars, cafes, bistros and corporate dining, with the aluminium option being perfect for both indoor and outdoor applications.

Finishes

The oak veneer shells are matt clear lacquered, but can be stained and lacquered. Aluminium shells are only available with a brushed anodised finish. For outdoor use the aluminium option must be finished in silver OD.

Design: Jonathan Harvey

Jonathan Harvey graduated from Buckinghamshire Brunel University in 1998 with a degree in Furniture and Related Product Design. A year later he founded JGH Design and his projects have encompassed both furniture and interior design for a number of major blue chip clients.
